

**Locks for
metal frames**

Multiblindo Easy
Automatic lock

Multiblindo Easy

It is a Multiblindo by all means: same sizes and dimensions, same security level. But it is an all-new Multiblindo, **conceived with 3 different functions to be set by the end user.**

To use Multiblindo Easy you need to apply an external fixed knob or a pull handle; as a matter of fact, a “classic handle” would unlock the door (emergency function).

It has been designed and tested

according to the European standard prEN 15685.

It resists lateral forcing with a thrust of over 1,000 kg and a front load of over 600 kg.

The corrosion resistance is more than 240 hours in a saline environment.

Endurance: tested to over 200,000 opening and closing cycles under a 120N load.

Example of certification: lock Multiblindo Easy, models 7A32 – 7A34 – 7A36 – 7A38

Locking.

The outstanding feature of Multiblindo Easy is the automatic locking of the latchbolt and deadbolts, which comes into operation when the door is pulled close to the door jamb. The end user may change the operating mode by switching the selector placed on the lock front plate. A special patented device allows the deadbolts to come out of the cases only when the latchbolt goes into the striking plate for at least 3 mm. The latchbolt aligns perfectly the wing to the door jamb; this operation ensures the best condition for the free movement of the deadbolts.

Opening.

Outside opening: the deadbolts are unlocked with a single turn of the key in the opening direction; the latchbolt is unlocked with a further ¼ turn.

Inside opening: the deadbolts are unlocked with a single turn of the key in the opening direction; the latchbolt is unlocked with a further ¼ turn.

Latchbolt and deadbolts are unlocked with 45° lever rotation.

Lever block.

The lever operation inside is blocked with a single turn of the key in the closing direction.

The operation is restored with single turn of key in the opposite direction. To avoid incorrect or accidental use, the lever block operation is only allowed when the deadbolts are completely locked. This also ensures that:

- deadbolts automatic locking is fully completed
- deadbolts connecting rod has been blocked (an attack on one of the deadbolts does not damage the others). As far as security is concerned, the lever block prevents the opening from inside if required, or from outside in the event of a door breaking (i.e. glass frame doors).

In terms of safety it ensures a better exit control.

Total “0” Deadbolts and latchbolt automatic locking

Light “1” Locking by latchbolt only

Free “2” Setting without locking (it allows to set the hold-open function)

Multiblindo Easy

Darstellung

Vermittlungsinhalte
Dieser Prüfbericht dient zum Nachweis der einbruchhemmenden Eigenschaften.

Gültigkeit
Die genannten Daten und Ergebnisse beziehen sich ausschließlich auf den geprüften und beschriebenen Prüfobjekt. Die Prüfung der Einbruchhemmung ermöglicht keine Aussage über weitere Leistungs- und qualitätsbestimmende Eigenschaften der vorliegenden Konstruktion.
Abweichend von geprüften Ausführungen sind folgende Größenänderungen zulässig:
- in der Breite +10% und -20%
- in der Höhe +10% und -20%.

Veröffentlichungshinweise
Es gilt das IFT-Konzept "Zertifizierungen sind Hinweise zur Bestätigung von IFT-Produktqualifikationen".
Das Dokuments kann als Kurzfassung verwendet werden.

Inhalt
Der Nachweis umfasst insgesamt 43 Seiten:
1. Gegenstand
2. Durchführung
3. Einzelergebnisse
4. Beurteilung
Anlage 1 (15 Seiten)
Anlage 2 (11 Seiten)

The door fitted with a Multiblindo Easy lock and tested by the German Institute IFT ROSENHEIM passed **CLASS 2 test according to EUROPEAN STANDARD DIN V ENV 1627**

EUROPEAN STANDARD DIN V ENV 1627.
All MULTIBLINDO series locks have obtained **GRADE 7** according to the security requirement **pr EN 15685.**

MULTIPOINT mortice lock for metal frames, AUTOMATIC LOCKING OF THE LATCHBOLT AND 3 DEADBOLTS, **ROTATING HOOK DEVIATORS**. Central lock, centre distance mm 92, operating with European profile cylinder. Right or left latchbolt, **non reversible**. Deadbolts and latchbolt operated by key or handle. Lock and deviators deadbolts, mm 27 throw, with anti-drill and anti-cut cover plates in carbonitrided steel. 2 nylon end blocks for U-version. Fixing screws. Instruction sheet.

Accessories to be ordered separately:
 Striking plates **U-front plate in stainless steel** 24x6x1860:
 mechanical strikers 033202 - 033203
 electric strikers 033212 - 033213
 strikers for deviators 033167 - 033171
Flat front plate in stainless steel 24x3x2300:
 mechanical strikers 033200 - 033201
 electric strikers 033210 - 033211
 strikers for deviators 033165 - 033169
