SUPERANTHRACITE
Guaranteed Not to Rub, Pitt or Tarnish

SUPERANTHRACITE - WITH A 10 YEAR FINISH GUARANTEE

From Olivari's Italian research and manufacturing facility comes a unique door hardware finish.

We are proud to highlight the latest finish, SuperAnthracite. Specifically created for architects and interior designers who are increasingly looking for products with a strong character, that are able to integrate with the interior decor and architecture of the project without compromising on its design and longevity.

As a result of this industry requirement; we bring you SuperAnthracite, the first and only finish of its kind applied to door handles. SuperAnthracite is a very dark grey, with a metallic sheen, it has a higher superficial hardness and performance. As a result it is part of our "Super Finish" range. SuperAnthracite finished hardware comes with a 10-year finish guarantee. It won't tarnish, t-stain, lose its lustre nor will its finish rub off, no matter how many times its used, even if fully exposed to the harshest of sea air environments.

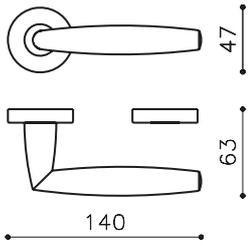

We are also proud to note that we have received the Mention of Honor ADI 2014 for its ongoing work in the Research and Innovation Processes: SuperAnthracite is the last of the achievements reached by the company through the application and development of processes which are typically found within the aeronautics world.

SuperAnthracite; a superior finish with improved quality and performance bringing new life to the handles in a game of contrasts and geometric elegance.

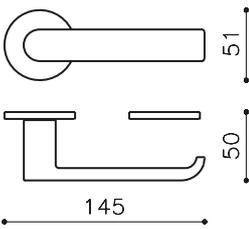

THE SUPERANTHRACITE RANGE

- A full range of matching escutcheon's, privacy snibs and emergency releases available.
- All models are available in standard finishes i.e SuperInox Satin, Polished Chrome, Satin Chrome.
- 100% made in Italy for over 100 years.
